FOOD FOR THOUGHT.

YOU can put your savings in bank stocks and get six or eight per cent. YOU can put your savings on deposit in trust companies and get four to six per cent, and if you HAVE A fillLION do either. But if your means are limited invest them where YOU KNOW they will bring you BETTER R:TURNS. The ECHEST MEN of the day owe their wealth TO Oil. It costs nothing to produce. The Standard Oil Company declared a dividend of twenty per ceat vesterday on wells that produce from twenty-five to one

hundred barrels of oil a day.

THE BECKY SHARP OIL COMPANY owns one gusher that produces ONE HUNDRED THOUSAND BARRELS a day, and have ground room enough for twelve more.

GENERALLY DULL DAY TO WALL STREET BROKERS.

Spasmodic Efforts to Arouse Enthusiasm All Fall Flat-Copper Shows Activity.

New York, Feb. 5.-To-day's stock mar-

ket was a dull affair again, in spite of spasmodic efforts by professional traders and speculative pools to awaken a general movement in the market. By the time they succeeded in moving prices at one point depression would develop in another, and in consequence the dull movement was irregall day. Striking movements in closely held, high-priced investment stocks continued a feature. The significance of these movements was not disclosed, although traders sought to make the most of them for their sympathetic effect on the general list. These apparently gensational movements on a very small volume of trading are a natural consequence, where the stock of a company is closely held for purposes of control or centralized in the hands of a few conservative and powerful capitalists for investment, who are quite

minfluenced by the course of prices in the A Few Stocks Hold Interest.

Among the stocks so moving were the Chicago and Northwesterns, American Express, United States Express and Lackawanna. Nashville, Chattanooga and St. Louis, which advanced 1915 yesterday, reacted 235 to-day, but closed with a net loss of only 2. The recent sensational upward movement in Lackawanna is associated with the rumors of control of that road in the interest of an outlet for the Wabash system. The Wabash stocks were very firm to-day in the same connection. Another center of speculation was in the local traction stocks under the influence of published reports from Philadelphia of the formatign of a securities company to hold Metropolitan Street Railway stock and possibly other local traction companies. Manhattan was the most active of this group, and Metropolitan Street Railway, after an upward spurt of 14, declined on profit-taking, failing 14 below last night during the day, and pulling the other local tractions down with it. The general market radied with some v.gor in sympathy. St. Paul rising 2 points over last night, and a number of other transcontinentals about a point. United States Steel also developed some strength just at the close. Other features of strength were the Toledo, St. Lauis and Western stocks and the jumor Vanherbilts on rumors of absorption of the former by Vanderbilt interests. Minneapolis, St. Paul and Sault Ste. The rise in Manhattan following the rise in Metropolitan was around of the Stock Exchange to mean that if a deal is put through the Manhattan will also be included. There was however, no authority for this assertion. Another reject used to explain the strength of Manhattan was that a closer traffic deal might be made with the New Halven Railway for the exchange of passengers at the Harlem River. On the advances in Havre, Hamburg and in Rio. The control of the steady and the built contingent were fairly active buyers. But commission purchases were not in evidence and the public did not seem to believe in the market. This is the first county in the State to hold its primary. The committee made the assessment small because of the large number of counties in the State. If you are not convinced from former articles which have appeared in this paper that shares at 10 cents, of the Granite Mountain Oil Company, capital \$150,000, are a good investment, then the fault is in our printed announcements and not in the company itself.

Facts That Cannot Be Controverted.

When we fell you that the Granite Mountain Oil Company is a legitimate industrial corporation, owning a great oil gusher and fulfilling contracts for oil for 2 years, from which enough income is provided to begin paying dividends in less than 7 weeks, we are but repeating what national bankers of Beaumont, Texas, will tell you.
